

# SÜDWEST KlimaKomfort Spachtel

Specific target organ toxicity - single exposure, Category 3, Respiratory system H335: May cause respiratory irritation.

## 2.2 Label elements

### Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms

Signal word

Danger

Hazard statements

H315 Causes skin irritation.  
H318 Causes serious eye damage.  
H335 May cause respiratory irritation.

Precautionary statements

P102 Keep out of reach of children.  
**Prevention:**  
P261 Avoid breathing dust.  
P271 Use only outdoors or in a well-ventilated area.  
P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.  
**Response:**  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P315 Get immediate medical advice/ attention.  
P302 + P352 IF ON SKIN: Wash with plenty of soap and water.  
P332 + P313 If skin irritation occurs: Get medical advice/ attention.  
P362 + P364 Take off contaminated clothing and wash it before reuse.  
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

Hazardous components which must be listed on the label:

portland cement

# SÜDWEST KlimaKomfort Spachtel

## 4.2 Most important symptoms and effects, both acute and delayed

Symptoms	Skin contact may provoke the following symptoms: May cause skin irritation and/or dermatitis. Risk of serious damage to eyes. Inhalation may provoke the following symptoms: Cough Irritating to respiratory system.
Treatment	Treat symptomatically. No information available.

## SECTION 5: FIREFIGHTING MEASURES

### 5.1 Extinguishing media

Suitable extinguishing media      The product is not flammable.  
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media      Not applicable

**5.2 Special hazards arising from the substance or mixture**      The product is neither explosive nor combustible and is also not oxidising in relation to other materials.

**5.3 Advice for firefighters**      No special measures required.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**6.1 Personal precautions, protective equipment and emergency procedures**      Avoid dust formation.  
Use respiratory protective device against the effects of dust.

**6.2 Environmental precautions**      The product should not be allowed to enter drains, water courses or the soil.  
If the product contaminates rivers and lakes or drains inform respective authorities.

**6.3 Methods and material for containment and cleaning up**      Use mechanical handling equipment.  
Moisten and remove.  
Avoid whirling up dust - vacuum-clean rooms instead of sweeping.  
Do not use compressed air for cleaning purposes.  
Dispose of contaminated material as waste according to item 13.  
Clean contaminated surface thoroughly.

**6.4 Reference to other**      Refer to protective measures listed in sections 7 and 8.

# SÜDWEST KlimaKomfort Spachtel

## sections

### SECTION 7: HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

##### Advice on safe handling

Avoid dust formation.

When handling sacked goods and using open mixing containers, first pour in water, then carefully allow the dry mortar to run in. Keep fall height low. Start up mixer slowly.

Do not compress empty sacks, e.g. in a larger sack. Large loads of over 25 kg should be moved not by hand but with the aid of mechanical equipment only. Depending on the employee's age, gender and constitution and the frequency with which loads are lifted and carried, they may also induce a high level of strain at lower weights.

Do not kneel in fresh product while working.

Provide sufficient air exchange and/or exhaust in work rooms.

Do not re-use empty containers.

##### Hygiene measures

When using do not eat, drink or smoke.

Wash hands before breaks and at the end of workday.

Avoid contact with the skin and the eyes.

Remove and wash contaminated clothing before re-use.

#### 7.2 Conditions for safe storage, including any incompatibilities

##### Requirements for storage areas and containers

Store in original container.

Keep in a dry place.

##### Advice on protection against fire and explosion

When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, fumes.

##### Further information on storage conditions

Protect from humidity and water.

Manufacturer's notes on storage conditions and product life must be observed.

##### Advice on common storage

Do not store near acids.

# SÜDWEST KlimaKomfort Spachtel

**7.3 Specific end use(s)** For further information, see also Technical Data Sheet for the product.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

The lists that were valid during the creation were used as basis. Contains no substances with occupational exposure limit values.

### 8.2 Exposure controls

#### Appropriate engineering controls

To avoid dust formation, closed systems (e.g. silo with feed system), local extractors or other technical control devices should be used, e.g. plastering machines or continuous mixers with special auxiliary equipment for collecting dust.

Washing facilities / water for rinsing eyes and skin should be available.  
Maintain air concentrations below occupational exposure standards.

#### Individual protection measures, such as personal protective equipment

a) Eye/face protection Safety glasses with side-shields conforming to EN166

b) Skin protection  
Hand protection Nitrile coated cotton gloves  
Break through time: 480 min  
Minimum thickness: 0,8 mm  
Protective gloves complying with EN 388.  
e.g. KCL 102 Sahara® Top (Kächele-Cama-Latex GmbH,  
Hotline: 0049(0)6659-87-300, kcl-uk@kcl.de), or equivalent.  
Gloves to afford protection from chemicals (cat. III) are not required.

Soaked gloves should be changed. Keep replacement gloves available.

After washing hands, replenish lost skin oil by means of oily skin ointment.

Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact).

The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other.

# SÜDWEST KlimaKomfort Spachtel

Body Protection	Long sleeved clothing
c) Respiratory protection	Avoid inhalation of particles. Mixing and transferring dry mortars in open systems:  Compliance with the maximum permissible levels at the workplace is to be ensured by effective dust control measures, e.g. local extraction devices. Where this is not possible, particle-filtering half masks of type FFP2 (tested in accordance with EN 149) are to be used.  Manual working of ready-to-use mortar: No respiratory protection necessary.  Machining of mortar: No respiratory protection necessary.

## Environmental exposure controls

General advice	The product should not be allowed to enter drains, water courses or the soil. If the product contaminates rivers and lakes or drains inform respective authorities.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Appearance	powder
Colour	white
Odour	odourless
Odour Threshold	No data available
pH	> 11,5 (20 °C) (aqueous suspension)
Melting point/freezing point	Not applicable
Initial boiling point and boiling range	not applicable
Flash point	not applicable
Evaporation rate	not applicable
Flammability (solid, gas)	The product is not flammable.

# SÜDWEST KlimaKomfort Spachtel

Upper explosion limit / Upper flammability limit	not applicable
Lower explosion limit / Lower flammability limit	not applicable
Vapour pressure	No data available
Vapour density	not applicable
Density	No data available
Bulk density	140 - 160 kg/m <sup>3</sup>
Solubility(ies) Water solubility	slightly soluble
Partition coefficient: n- octanol/water	not determined
Auto-ignition temperature	not auto-flammable
Decomposition temperature	No data available
Viscosity Viscosity, dynamic	not applicable
Explosive properties	Not explosive
Oxidizing properties	Not applicable

## 9.2 Other information

Flow time	not applicable
-----------	----------------

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity

No dangerous reaction known under conditions of normal use.

### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

# SÜDWEST KlimaKomfort Spachtel

Hazardous reactions This information is not available.

## 10.4 Conditions to avoid

Conditions to avoid Avoid exposure to water and moisture during storage (moisture leads to an alkaline reaction which causes the mixture to harden).

## 10.5 Incompatible materials

Materials to avoid Reacts exothermically with acids; the moist product is alkaline and reacts with acids, ammonium salts and base metals, e.g. aluminium, zinc, brass. The reaction with base metals produces hydrogen.

## 10.6 Hazardous decomposition products

Hazardous decomposition products No decomposition if stored and applied as directed.  
Decomposition temperature No data available

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

#### Acute toxicity

##### Product:

Acute oral toxicity Based on available data, the classification criteria are not met.

Acute inhalation toxicity Based on available data, the classification criteria are not met.

Acute dermal toxicity Based on available data, the classification criteria are not met.

#### Skin corrosion/irritation

##### Product:

Causes skin irritation.

##### Components:

##### portland cement:

Causes skin irritation.

#### Serious eye damage/eye irritation

##### Product:

Causes serious eye damage.

# SÜDWEST KlimaKomfort Spachtel

**Components:****portland cement:**

Causes serious eye damage.

**Respiratory or skin sensitisation****Product:**

Based on available data, the classification criteria are not met.

**Germ cell mutagenicity****Product:**

Genotoxicity in vitro

Based on available data, the classification criteria are not met.

**Carcinogenicity****Product:**

Based on available data, the classification criteria are not met.

**Reproductive toxicity****Product:**

Effects on fertility

Based on available data, the classification criteria are not met.

Developmental Toxicity

Based on available data, the classification criteria are not met.

**STOT - single exposure****Product:**

Exposure routes

Inhalation

Assessment

May cause respiratory irritation.

**Components:****portland cement:**

Exposure routes

Inhalation

Assessment

May cause respiratory irritation.

**STOT - repeated exposure****Product:**

Based on available data, the classification criteria are not met.

**Aspiration toxicity****Product:**

Based on available data, the classification criteria are not met.

**Experience with human exposure****Product:**

General Information

Cement may exacerbate existing illnesses of the skin, eyes and respiratory passages, e.g. in case of

# SÜDWEST KlimaKomfort Spachtel

pulmonary emphysema or asthma.

## Further information

### Product:

The product itself has not been tested. The mixture is classified in accordance with Annex I to EC Directive 1272/2008. (See sections 2 and 3 for details).

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Toxicity

#### Product:

Toxicity to fish                      No data available

### 12.2 Persistence and degradability

#### Product:

Biodegradability                      No data available

### 12.3 Bioaccumulative potential

#### Product:

Bioaccumulation                      No data available

### 12.4 Mobility in soil

#### Product:

Mobility                                  Not applicable

### 12.5 Results of PBT and vPvB assessment

#### Product:

Assessment                              This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### 12.6 Other adverse effects

#### Product:

Additional ecological information                      Eco-toxic effects, in particular aquatic toxicity, are only possible when larger quantities are released into water resulting in a change of the pH-value. Do not flush into

# SÜDWEST KlimaKomfort Spachtel

surface water or sanitary sewer system.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods

Product	<p>The user is responsible for proper coding and marking of any waste.</p> <p>When used as recommended, the waste code can be selected according to the code of the European Waste Catalogue (EWC).</p> <p>Opened and left-over materials can be used later. Only material no longer suitable for use should be mixed with water and allowed to harden.</p> <p>Hardened product residues may be disposed of as industrial waste or building rubble under waste codes 17 01 01 or 10 13 14.</p> <p>Unhardened product residues should be disposed of under the recommended waste code number.</p>
Contaminated packaging	<p>Packaging that is not properly emptied must be disposed of as the unused product.</p> <p>Empty packaging should be recycled through disposal systems.</p>
Waste key for the unused product	<p>17 09 03* other construction and demolition wastes (including mixed wastes) containing hazardous substances</p> <p>(* ) hazardous waste in terms of the European directive 91/689/EEC</p>

## SECTION 14: TRANSPORT INFORMATION

### 14.1 UN number

Not regulated as a dangerous good

### 14.2 UN proper shipping name

Not regulated as a dangerous good

### 14.3 Transport hazard class(es)

Not regulated as a dangerous good

### 14.4 Packing group

Not regulated as a dangerous good

# SÜDWEST KlimaKomfort Spachtel

## 14.5 Environmental hazards

Not regulated as a dangerous good

## 14.6 Special precautions for user

Remarks This information is not available.

## 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Remarks Not applicable

## SECTION 15: REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

VOC  
Directive 2004/42/EC

does not fall under Directive 2004/42/EC

Regulation (EC) No  
649/2012 of the European  
Parliament and the Council  
concerning the export and  
import of dangerous  
chemicals

Not applicable

Other regulations

Comply with the statutory regulations on health and safety at work.

Take note of Dir 94/33/EC on the protection of young people at work.

Take note of Dir 92/85/EEC on the safety and health at work of pregnant workers.

The cement in the product is chromate-reduced. Persons with a chromate allergy should not handle the product.

# SÜDWEST KlimaKomfort Spachtel

## 15.2 Chemical safety assessment

This information is not available.

## SECTION 16: OTHER INFORMATION

Changes from the previous version are indicated by markings in the left-hand margin.

The information in this Safety Data Sheet corresponds to our present state of knowledge and conforms to both national and EU legislation. The user's working conditions are, however, beyond our knowledge and control. The user is responsible for complying with all necessary legal requirements. The information in this Safety Data Sheet describes the safety requirements of our product and does not constitute any assurance of product properties.

## Further information

Other information

The assessment was carried out in accordance with Article 6 (5) and Appendix I of EC Directive no. 1272/2008.

It is possible in the interim period that you may find different markings on packaging compared to the Material Safety Data Sheet until stocks have been used up. We ask for your understanding in this matter.
